acfg

Extracting the ACFG feature of each function from the binary file based on angr.

基于angr从二进制文件中提取每个函数的ACFG特征。

Install

```
1   pip3 install -r requirements.txt
```

Usage

```
 1   python3 main.py -h
 2
 3   usage: main.py [-h] [-v] [-o OUTPUT] inputFile
 4
 5   提取二进制程序特征
 6
 7   positional arguments:
 8     inputFile            二进制文件
 9
10   optional arguments:
11     -h, --help          show this help message and exit
12     -v, --version       show program's version number and exit
13     -o OUTPUT, --output OUTPUT
14                         =存储目录
```

Example

From single binary

```
1   python3 main.py -o ./out/ data/busybox
```
